

European Chemical Societies Publishing

About Chemistry Europe

Founded in 1995, **Chemistry Europe** is an association of 16 chemical societies from 15 European countries, representing over 75,000 chemists. It publishes a family of high-quality scholarly chemistry journals, covering a very broad range of disciplines.

Its **mission** is to evaluate, publish, disseminate, and amplify the scientific excellence of chemistry researchers from around the globe in high-quality publications. It supports its members at every stage of their careers as they strive to solve the challenges that impact humankind. In all its work, Chemistry Europe values integrity, openness, diversity, cooperation, and freedom of thought.

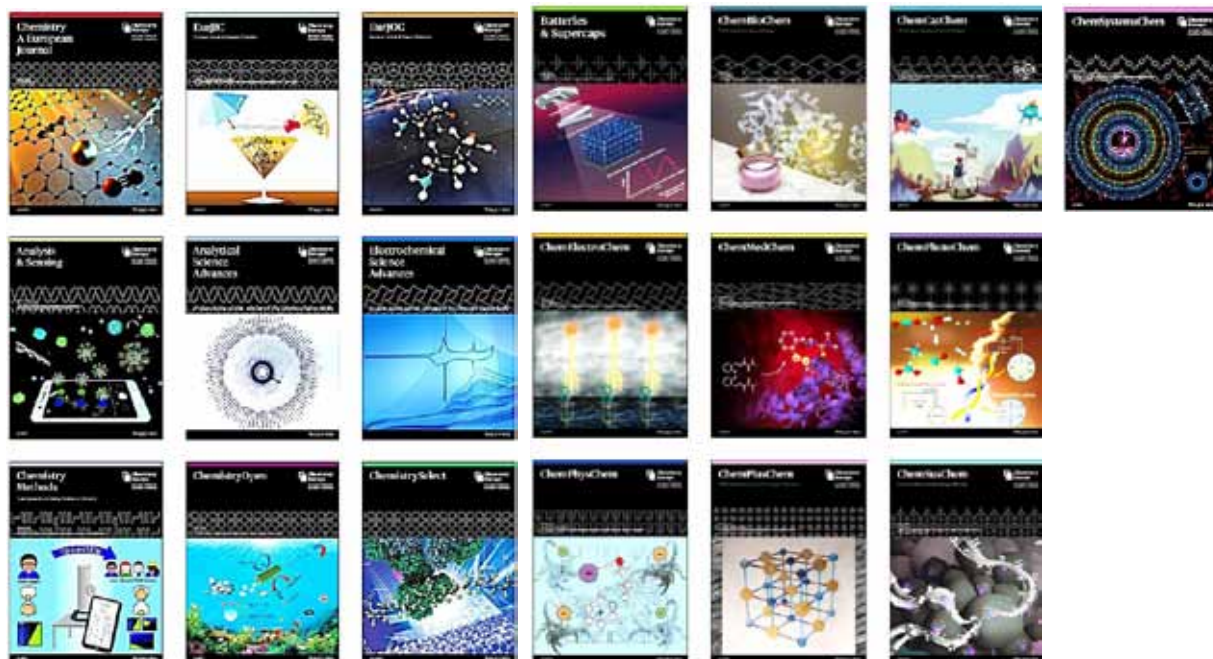

Member Societies

Chemistry Europe comprises 16 chemical societies from 15 countries.
